Dr. FILL ME IN, Professor and Chair,
Department of Systems Design Engineering, University of Waterloo
Waterloo, Ontario, Canada
N2L 3G1

Dear Prof. FILL ME IN,

I have prepared this report, "Design of a Latex WTR Following the SYDE Guide," as my 3B Work Report for the Engineering team at Gandalf Technologies. This report is the FIRST SECOND FINAL of three that I must submit as part of my degree requirements, and it has not received any previous academic credit. This report was entirely written by me and has not received any previous academic credit at this or any other institution.

FILL ME IN Write some stuff about the company briefly, name your manager, etc.

The purpose of this report is to ... FILL ME IN. Write a one or two sentence, VERY BRIEF overview of the report.

Sincerely,

A handwritten signature in cursive script that reads "Erik".

Abstract

This is a L^AT_EX style that aims to match the uWaterloo SYDE style guide because doing work term report formatting makes me want to ahkerfg kasjrgu dfhgukia rgfzjkxfh aeguxdfgzxyu auisdrjgfh ifawuiegf isdurgfia uewrzcjbn zkjd-fcvmba weukirydfui erjk t zxcg awr sdfh stry sdfh yukstrh f nynyuijkjef acse fcvdt ukyivegt hac ertse rgc.

Contents

1	First section	1
1.1	A subsection	1
	A sub-subsection	1
2	Some Tables and Figures	2
3	Equations	4
4	Citations	5
	Appendices	6
A	Glossary	6

List of Figures

1	System diagram of a P controller	2
2	It's a kitten. You like kittens.	3

List of Tables

1	Some table I copied from the Latex wikibook online	2
---	--	---

1

First section

Your text goes here. I'm going to add a bunch of words to make this a paragraph longer than one line.

The next paragraph is automatically indented, as per the guide (default L^AT_EX behaviour)

A subsection

More text.

A sub-subsection

Yep, it's actually a `\subsubsection{sub-subsection name}`.

2

Some Tables and Figures

Here is a figure:

Figure 1: System diagram of a P controller

I can start talking about that figure, and refer to it as figure 1 and the number will update based on the label which is very useful when you're shuffling stuff around because you don't have to keep track of figure numbers.

We can also do tables, like so

Day	Min Temp	Max Temp	Summary
Monday	11C	22C	A clear day.
Tuesday	9C	19C	Cloudy with rain.
Wednesday	10C	21C	Rain.

Table 1: Some table I copied from the Latex wikibook online

Like the previous figure, we can refer to this table as table 1.

Here is a kitten:

Figure 2: It's a kitten. You like kittens.

3

Equations

Here is the transfer function to the control system shown in figure 1:

$$T(s) = \frac{Y(s)}{R(s)} = I(s) \cdot \frac{K_p \cdot P(s)}{1 + K_p \cdot P(s) \cdot H(s)} \quad (1)$$

As usual, we can use it's number. That was formula (1)

4

Citations

Three items are cited: *The L^AT_EX Companion* book [1], the Einstein journal paper [2], and the Donald Knuth's website [3]. The L^AT_EX related items are [1, 3].
